

## Summer Camp Weekly theme activities!

### Week (1) Fun and Fitness

Weekly theme activity:

Obstacle courses are fun and campers don't think of them as fitness activities. Have groups challenge each other on different obstacle courses. These can be as simple as running through cones, doing 10 seconds of jump-roping, kicking a soccer ball around some cones, throwing a ball through a hanging tire then running back to the start and "hitting the balloon over a net with friends."

### Week (2) Legos Madness

Weekly theme activity:

There are so many things we are going to do with Legos. This week summer camp theme is centered around Legos. From building to creating new thing, there will be in a few robotic Lego kits to help children learn how things work when put together. This will help with fine motor skills and STEM education.

### Week (3) Let's Get Crafty DIY (Do It Yourself)

Weekly theme activity:

Do It yourself, children will have a choice between Photo Pillow Covers and Wood Flower Photo holders. They will be painting and decorating "do it yourself" crafts adding their favorite photo of friends and family to be viewed and admired.

### Week (4) Wacky Race Week

Weekly theme activity:

There will be a variety of fun wacky crafts and we will set up some fun wacky races throughout the week for each child to participate in. The children will be painting their own wooden race car to participate in the wacky race on that Friday. Our model "Everybody is a winner". Weekly theme activity:
